

## Corsa Security Solution

### for Automating and Scaling Virtual Firewalls

The turnkey Corsa Security solution allows large enterprises, managed security service providers (MSSPs) and service providers (SPs) to replace physical firewalls with virtual ones and more easily scale threat protection at much lower total cost of ownership (TCO).

**PUSH BUTTON, FIREWALL VIRTUALIZATION SHORTENS TIME TO DEPLOYMENT**

**SPINNING UP A NEW FIREWALL IS AS "EASY AS THE CLOUD,"** since the IT or support team can quickly execute it.

**BUDGET-FRIENDLY, PAY-AS-YOU-GROW** business model so you only pay for the throughput you need.

**CUT AVERAGE PROVISIONING TIME AND COST PER EVENT** since all firewalls are controlled from the Corsa Security Orchestrator.

**DRIVE DOWN COSTS AND TRAINING NEEDS** by integrating with your security and operations tools.

#### About Corsa Security

Corsa Security is the leader in automating network security virtualization, which helps large enterprises and service providers deploy, scale and optimize virtual on-premise firewalls with speed (24x faster deployment), simplicity (zero-touch operations) and savings (9x lower TCO). By tightly integrating virtualization with intelligent orchestration in a single dashboard, the Corsa Security Orchestrator provides an aggregated view of all your virtual firewall while managing the infrastructure health, capacity, and performance. Customers subscribe to the Corsa Security services based on their current needs and then pay as they grow by integrating credit-based licensing from our firewall partners.

**Learn how Corsa is revolutionizing network security at [corsa.com](http://corsa.com).**

**100%  
READY TO DEPLOY  
OUT OF THE BOX**

**9X  
LOWER TCO**  
COMPARED TO  
DIY VIRTUALIZATION

INTEGRATED WITH  
**PALO ALTO NETWORKS  
AND FORTINET**

**READY FOR FUTURE  
SECURITY SERVICES**

# Advantages of Automated Virtualization with Corsa Security

The Corsa Security Orchestrator is extremely simple to use so you can deploy, scale and optimize on-premise virtual firewalls.

- Manages firewall VM licenses, software upgrades and offers **zero-touch provisioning**
- Control all of your NGFWs from a single UI**, which is optimized for hands-free network security
- Integrated with **best in class threat protection** from Gartner leaders, such as Palo Alto Networks
- Pay-as-you-grow pricing model so you **only buy what you need** now

## Quick Virtual Firewall Deployment

Automated firewall deployment for push-button provisioning so anyone can execute

Bulk migration of physical firewalls including integration with policy and config management

Multi-tenancy, mix and match NGFW subscriptions and firewall vendors

Control virtual firewalls from the Corsa Security Orchestrator

Manage budget as you transition from hardware to firewall VMs

## Flexible Firewall Licensing

The Corsa Security solution is an always evolving platform versus a point solution for firewall VMs

Single subscription covers hardware and software upgrades so hardware is "evergreened"

Pay-as-you-grow model is ideal for scaling firewall capacity and adding new security service as needed

License management from the Corsa Security Orchestrator and integration with new credit-based licensing from firewall vendors
